

**Model Numbers:**

HC30613 Wood Leg,  
HC30613F Legs with Metal Ferrules,  
HC30613P Leg Protector on Legs

**Description:** Straight Leg Dining Table

**Width:** 38"

**Height:** 30"

**Depth:** 38"

-Internal Hardwood Band, 1 ¼" Thick Top.

-White High Pressure Laminate applied to the bottom to stabilize the table from top to bottom.

-Table bottom is non-porous and cleanable.

Waterfall edge profile allows for easy cleanup and eliminates sharp corners.

- Internal lumber banded core (band is covered over by the High Pressure Laminate and fully integrated). Lumber band has eased corner top profile to eliminate sharp edges. Lumber band and apron rails are finished with Conversion Varnish.

-Heavy duty metal corner brackets hold apron rails together. Apron assembly comes pre-assembled to the top with ample pocket screws.

-The legs are interchangeable and can be easily field replaced. Heavy duty steel inserts are used on the corner legs. Supplied machine bolts with washers and lock washers attach the legs firmly to the metal corner brace. This simple assembly also provides a more stable completed product.

**\*\*New Height\*\*** Now, ADA Compliant with 27" Center Clearance (25.75" Apron Height)
