

TOUGH STUFF! 3-Ply Ladder End Beds and Bunkbeds.

Wood:

A purposeful combination of southern yellow and radiata pine engineered for strength, longevity, value and ease of maintenance. Solid wood construction. Kiln dried to 8-12% moisture content to minimize warpage.

Stain:

No-wipe (NGR) stain topped and sealed with 2 coats of 50-sheen catalyzed lacquer. All items are available in Honey Brown or Black protective lacquer finish.

Glue:

Water-based polyvinyl acetate.

Fasteners:

#8 x 1 1/4" wood screws, 2" finishing nails, 4 hole angles with 5/8" pan head screws, 5" lag bolts.

Construction of End Panels:

3-ply panels. Middle ply constructed of 1" x 6" and 1" x 4" horizontal solid wood boards. Outer plies constructed of 1" x 4" vertical solid wood boards. Panels are glued and nailed with 2" finish nails, then sealed in a hydraulic press for tight seams and durability. End panels are bored to accept lag bolts, with recessed holes to keep bolt head flush with outer surface. Demountable top and bottom bunk are secured by 3" long steel dowel pins, 3/8" diameter.

Construction of Side Rails:

Solid wood 2" x 6" board, bored to accept 5" long, 3/8" diameter lag bolts. Solid wood 2" x 2" cleat is attached to the inside of each rail with glue and shank screws to provide support for the mattress foundation (not included). Mattress foundation support consists of (4) 1" x 4" solid wood boards that rest on top of the cleats, attached with #8, 1 1/4" wood screws.

Construction of Guard Rails:

Guardrails consist of (2) 75 3/16" x 1" x 4" boards fastened together with (3) 8 3/4" x 1" x 4" boards leaving 3" of space between the horizontal boards. Guard rails attach to bed with (2) 2-hole angle brackets and (4) 5/8" screws on each end.

Warranty:

Furniture is engineered for heavy-use environments and protected by 10-Year Structural Warranty.
